Truckee Republican

88th Year, No. 48 Truckee, Nevada County, California Thursday, November 21, 1957 10c Per Copy—$3 Per Year Since 1869

Petition Requests Examination Of Utility Operations

120 Sign Document Asking Probe; Cost May Be Prohibitive

A petition signed by 120 qualified voters of the Truckee Public Utility District was presented to the board of directors at their meeting on November 14 by I. O. Gifford requesting the district to employ a qualified expert to examine and report upon the overall operations of the district as set-forth in the utility code.

The utility code provides for such an examination and report when requested by at least 15 percent of the qualified electors of the district and further provides that the cost shall not exceed the sum of $2500.

The board has referred the petition to the district's attorney, Paul H. Chamberlain of Auburn, for his advice.

The utility code also sets forth that the expert to be employed shall be one of several submitted as selected and certified by the public utilities commission.

Manager C. Edmunds stated that to the best of his knowledge such an examination and report has never been asked for or made of any utility district in the state since the passing of the utility act in 1921. He further stated that he personally welcomes such an examination as the Truckee Public Utility District stands out as the only such utility district in the state that has never placed a cent of taxes on the inhabitants of the district and has a debt-free investment of over $400,000 from an original bonded investment in 1928 of $20,000.

Also present at the meeting of the board were Donald Lawrie, highway right of way agent, A. B. Cook, Mrs. Betty Kielhofer and G. E. Lewis. Mrs. Kielhofer and G. E. Lewis, representing the Truckee Park Committee, were interested in the progress made on establishing a recreational park on the district's land south of the proposed freeway in the Meadow Lake area.

Lawrie discussed with the board some of the parcels of land to be acquired for the new freeway.

Following the meeting of the board members in the afternoon made a personal inspection of the several parcels of land desired by the highway commission.

Sales Tax Meeting Brings No Solution

Discussion pro and con regarding the proposed uniform county sales tax was heard at the meeting of the Nevada County Board of Supervisors at Tuesday's meeting, but no action was taken to bring the issue to a satisfactory conclusion.

The presentation of arguments to the board followed a lengthy meeting at Nyack Lodge Monday evening at which James Sherritt of Soda Springs represented the east end interests.

Wallace Brunker, county fiscal expert, was the moderator at the session with supervisors, county officials, farm representatives and city officials taking part. All interested agencies are attempting to work out an equitable division of the money collected through the sales tax.

Mayor William Mullis of Nevada City said that city will continue to ask for an 80-20 division.

SCHOOL BOARD IN ROUTINE MEETING

Routine business occupied members of the governing board of the Tahoe-Truckee Unified School District last week.

A progress report, indicating at least two classrooms will be ready for occupancy by January, was made by Inspector Edwards who is overseeing work at the new Kings Beach school addition.

The board commended Superintendent John Corbin on the results of the recent auditor's report.

Clarence W. Hatfield was employed to drive the Donner Trail school bus and Lloyd Robinson was employed as bus driver-custodian.

PRE-CHRISTMAS FETE PLANNED BY LODGE

A pre-Christmas party and the second nomination of officers for the coming year will be held December 11 by Naomi Rebekah Lodge No. 2. All members are requested to be present.

Mrs. Alice Sanders of Vallejo was a guest at the November 13 meet, welcomed by Mrs. Rex Reid, noble grand. Mesdames L. Vind, L. Horman, M. Avila and R. Gross presented a skit for the occasion.

There will be no meeting November 27 due to the holiday the next day.

OPTOMETRIST OPENS OFFICE IN TRUCKEE

Dr. Albert J. DeMers, optometrist, has arrived from Sparks and established an office on the second floor of the Masonic Building.

Dr. DeMers provides complete visual care for adults and children and visual training is his specialty. Office hours are by appointment.

Building At Local Bottling Plant To Provide Expansion

Extensive improvements have been started to enlarge facilities at the Coca-Cola Bottling Company plant in Truckee and at the same time the owner, W. M. Englehart announced a new home-delivery service.

The 60-60-foot combined warehouse and garage is being constructed adjacent to the present plant just across the Truckee River on the Brockway shortcut and will ajoin the plant on the east. It will provide ample space for housing the company's vehicles as well as serving as a warehouse for bottled beverages and other stock required by the company.

The building will be of concrete block with a concrete floor. The three huge drive-in doors will be of metal construction and thus the building will be entirely fireproof. The roof will be of fire-proof material, Englehart said.

Conveyors will transport empty bottles from the trucks in the warehouse to the bottling machines. There they will be cleaned, sterilized, filled and returned to the warehouse for fast deliveries.

The bottling equipment is now designed to bottle the three popular sizes of Coca-Cola—the family size, king size and regular size.

Englehart said that the company is now prepared to make home deliveries in case of six-pak quantities when consumers are unable to secure the beverage from local retail stores. A call to the Coca-Cola plant will assure immediate deliveries in any quantity from the six-pak up, Englehart said.

OPEN HOUSE PLAN BY TELEPHONE COMPANY

Manager George Selkirk of the Pacific Telephone Company has announced that open house will be held at the Truckee and Tahoe City dial stations so that subscribers may acquaint themselves with the operation of the intricate system.

The Truckee open house will be held December 3 from 9 a.m. to 8 p.m. and during the same hours at Tahoe City on December 5. An employe of the company will be on hand to explain the operation of the system.

School children will be provided guided tours of the two installations between 9 a.m. and 1 p.m.

Selkirk is extending an invitation to everyone interested to call on the dates given.

CHARLES OLIVER TO ADDRESS CLUB HERE

Charles Oliver, member of a pioneer local family and now head of the department of motor vehicles in Nevada, will give a talk on the history of Hobart Mills at a meeting of the Rotary Club at Donner Lake Lodge Monday. An invitation to the Lions Cub at attend has been extended by Program Chairman Carroll Maynard.

Oliver, son of the late G. D. Oliver, head of the Hobart Lumber Company for many years, spent most of his early life at Hobart Mills and his talk should prove interesting and educational to the old-timers as well as recent arrivals. Dick Swanson will preside and Charles Cross will introduce the speaker.

NEW EQUIPMENT AT INSURANCE OFFICE

For public convenience, C. Z. Smith has installed in his insurance office in the Masonic Building a new Apeco Dial-a-Matic photocopying machine. The new equipment is designed to reproduce documents of all kinds for permanent filing or for mailing.

The equipment operates along the lines of Polaroid camera and copies are obtained quickly and neatly finished.

OLD HOUSE BURNED AS FIREMEN CALLED

Fire, which Chief N. F. Dolley reported was intentionally started to remove an old uninhabited dwelling owned by Nick Sassarini on the south side of the Truckee River Sunday brought out the fire department to prevent the flames from spreading to other buildings in the vicinity. The building had not been used for a long time and was not insured, Dolley said.

Mrs. Fred Pedley gave a talk on pay TV at the well-attended meeting of the High School PTA last Thursday night and the question period showed the interest in the subject. Miss Collins gave an enlightening talk on Japan, its people, customs and industries.

Travel Gains Here But Shows Drop At Other Stations

Truckee Is Second Among Stations As Port Of Entry

Although travel into California showed a drop in October as compared to October, 1956, the figure for the Truckee Quarantine Station was up for the same period, as U.S. Highway 40 continued to be the second most popular entrance route into the state.

This was revealed in the monthly report of the state department of agriculture which shows that during last month 44,651 cars, 4206 trucks and 666 buses, with a total passenger count of 123,304, were checked at the local station.

During the same month last year, there were 39,721 cars, 632 buses and 3407 truck checked into the state here. The growth is held more than normal since considerable highway construction work is being done on the local roads and traffic has been delayed for some periods.

The only station to exceed Truckee last month was Yermo in southern California. Winterhaven, with 35,550 cars was the only other port of entry to near the local mark.

Meyers on Highway 50 reported 13,254 cars, 683 trucks and two buses last month, a slight drop from a year ago.

Hope For Truckee Locomotive Dim

The possibility of Truckee obtaining one of the old steam locomotives from the Southern Pacific Company to become a historical monument dimmed with the receipt of a letter to the board of supervisors from J. H. Mahan of Reno, district passenger and freight agent.

The letter advised the board that the county's application was late and that all the old mallets had been assigned or were asked for on previous applications.

The supervisors had asked for the engine at the request of the Truckee Rotary Club when a committee, headed by John Ciardella, President Dick Swanson and James Sherritt appeared to make a formal request.

Mahan said that while the application was late, it would be forwarded through channels for processing and further consideration might be given.

BEGINNERS CLASS IS STARTED BY DANCERS

A beginning class in square and round dancing will be started tonight in the Veterans Building. Lloyd and Virginia Everett, who will conduct the class, urge all interested members of the area to attend. The session will last from 8 to 10 p.m. and the sponsors hope to hold the class every week for several weeks.

The Donner Dancers will hold their weekly dancing party tomorrow night in the Veterans Building.

Last week the Donner Dancers welcomed as their guests Joan Decker, Judy and Linda Giovannoni, Dorette Rose, Vickie Firpo, Kathleen York, Kathie and Terry Lee Ellis, Charles Glenn, and Mike Armstrong.

Ray Wackers Parents Of Son Born At Reno

Mrs. R. R. Frank of Verdi, told local friends this week that her son and daughter-in-law, Mr. and Mrs. Ray Wacker became the parents of a son at Reno, on November 13. The little boy has been given the names of Timothy Ray. The parents are also well known here where Wacker was employed by the P.M.T. before going to Nevada.

Investiture Delayed

Due to other conflicting activities, the investiture of members in the Donner Troop of Girl Scouts was postponed and will be held at a later date. During a previous meeting Dorette Rose received a pen pal and a first aid badge.

Leave Truckee—
Leaving Truckee, the winter address of John Reedy is Kernville, Calif.

Recuperating—
Barry Leamon, son of Mr. and Mrs. Robert Leamon underwent a tonsilectomy Monday in Tahoe Forest Hospital.

SUNBEAMS

By WALTER M. BARRETT

This district for a number of years now has enjoyed the services and facilities of its hospital and we wonder sometimes if we are not inclined to take that institution for granted and forget the days before it was built and staffed. It would be impossible to number the lives which have been saved because of its existence—they would be many, we are sure. True, operation of a hospital costs money and we in the district are all required to pay our share, and patients are billed for services, but we will all agree that in terms of life and suffering, the money spent is a minor consideration. We often hear former patients praise the hospital, its capable staff and attaches and its administration for the kind treatment and pleasing atmosphere which they enjoyed there. It is very gratifying to know that we have it, and even though we are inclined to forget our situation before it was provided, and even occasionally may offer criticism, we know that we all really do appreciate our hospital and are sincerely glad it is available in time of need.

* * *

Along about this time of the year, we like to divert from our usual editorial policy to do a bit of industrial advertising, for the Sierra Sun. We like to call attention to the fact that we have available scores of the latest design of personalized Christmas cards and ask you to come in and scan them at your convenience.

NEW MINISTER HERE TO TAKE PULPIT IN METHODIST CHURCH

Rev. A. T. Hanson of Sacramento has been transferred to Truckee and will give his first sermon in the Community Methodist Church on Sunday, the service to begin at 11 o'clock.

Rev. Hanson has been in charge of youth and religious education in the First Methodist Church in the capital city, according to Victor McLane who received the telephone call of the appointment.

The new minister is married and the father of a 12-year-old son.

Due to the change of arrangements, Sunday school will convene at 9:30 Sunday morning.

The Youth Fellowship will be held at 6:30 p.m. Sunday in the church building.

USE OF OLD TAHOE HATCHERY STARTED

TAHOE CITY—Final arrangements were made Monday night for the use of the buildings at the old fish hatchery near Tahoe City.

Negotiations for community use of any of these buildings have been underway for some time. The nursery school will move in just as soon as necessary cleaning can be done and the Tahoe Ski Club will also hold meetings there. The Boy Scouts, Girl Scouts and any other group may utilize the structures by making arrangements with Jack Starratt at Village Store of with Mrs. Wes Donaldson.

Help is needed now for cleaning up and any individual or group liking to help should contact either Mrs. Donaldson or Starratt. Furniture also is needed—chairs particularly. Toys can always be used in the nursery.

The building is just down the hill below the home of Deputy Sheriff Bud Rabsca.

New System Offered In Marine Enlistments

SAN FRANCISCO—The United States Marine Corps is now accepting applicants for enlistment and allowing them up to 120 days delay before reporting for active duty, according to the local Marine Corps recruiter here.

The new program will allow volunteers to enlist in the Marine Corps Reserve and request assignment, within 120 days, to active duty for a period of three years. This program will specifically benefit high school seniors who graduate in mid-year or other young men who want to be marines but want to wait until after the holidays to enlist.

In Ohio—
Mrs. Henry Droste is visiting relatives at Canal Fulton, Ohio.

Lay-off Of County Road Crews May Delay Snow Plows

Entire County Is Affected By Commissioner's Economy Plan

Rumor to the effect that county road employes are being laid off in the Truckee district because of this area's opposition to a proposed sales tax ordinance were emphatically denied by Supervisor H. G. Loehr, who explained that the action by Road Commissioner Robert Graham was countywide and done purely as an economy measure.

Loehr said that the plan, originating with the road commissioner and as explained to the board of supervisors, provides that all men in the department will be laid off one week each month until a total of one month's pay has been realized to assist in bringing the budget back into line.

The plan further provides, Loehr declared, that compensatory time off will be given the road workers instead of overtime pay. There are approximately 40 men in the county affected by the ruling.

Loehr opposed the plan when it was proposed, but the matter is not one to be decided by the supervisors but is up to the road commissioner.

It is problemetical how the layoff plan will affect local snow removal work, but it is evident, Loehr declared, that it will not help.

The economy plan, Loehr said, is expected to result in a saving of $16,000, a month's pay for the entire road department crews.

Stice Takes Post; Resigns As Agent

Directors of the Truckee Chamber of Commerce at a luncheon meeting at Smart's Wednesday regretfully accepted the resignation of Treasurer Earl K. Stice and appointed C. Z. Smith to fill the unexpired term.

Stice, in his resignation, said he was resigning his position as agent for the Southern Pacific Company here to accept a second-trick operator post at Norden, a job held for many years by the late Ralph Duncan.

Mr. and Mrs. Stice will continue to make their home here and he said he planned to continue his interest in community and civic affairs. Mrs. Stice will retain her position with the school district.

In other action, the chamber directors agreed that efforts during the next few weeks will be devoted primarily to obtaining suitable and colorful brochures to advertise the community.

The forthcoming election ,membership drive and other routine matters were discussed. Rex Reid presided at the session.

FORMER RESIDENTS OF TRUCKEE MARRY

A ceremony performed Sunday, November 10 united Miss Patricia Sweet and Jack Edward White of Colfax, son of Mr. and Mrs. Guy White, formerly local residents.

White is employed by the state division of forestry as a forest fire fighter foreman. Truckee friends of the family attended the wedding.

More Work If Taxes Less, Association Points Out

Nevada County along with other California counties could provide at least 65,832 breadwinners throughout the state with tools and equipment to hold new jobs if only a 10 percent reduction were made in all taxes, provided this money went into capital formation.

Ten percent of Nevada County's share of all local, state and federal taxes could provide investments to put at least 82 breadwinners to work in the expanding California economy.

This was the estimate of the California Taxpayers' Association, based on its own study and the estimate of the National Association of Manufacturers that about $15,000 is required in industry to put one new earner to work. Pointing out that efforts to control government expenditures might well lead to the release of money necessary to create jobs for more employes.

Mrs. Clark Reported Ill—
Local friends of Rev. and Mrs. Aubrey Clark have learned with regret of the recent serious illness of Mrs. Clark at their Redwood City home.

Joint Installation Of Lodge Officers Is Planned Saturday

Joint installation of officers of Truckee Chapter No. 116, O.E.S. and Truckee Lodge No. 200, F&AM will be held Saturday, November 23, at 8 p.m.

Lillian L. Miller of Floriston will be installed as worthy matron and J. D. Anderson of Tahoe Vista as worthy patron of the O.E.S. and Wayne Philippi will replace Sam Faulker as worshipful master of the Masons.

Installing officers for the O.E.S. will be Catherine Moore and Everett L. Moore, both of Berkeley, honorary members of the local lodge. Sam Faulkner will install the Masonic officers with R. S. Critchley as master of ceremonies.

Other Star officers to take their positions Saturday are Pearl Heller, associate matron; Charles R. Heller, associate patron; Louise Anderson, secretary; Victoria McIver, treasurer; Margaret Craig, conductress; Grace Williams associate conductress; Wayne Philippi, chaplain; Elmay Philippi, marshal; Hilda Hintz, organist.

Lucille Sauby, Adah; Ruby Faulkner, Ruth; Dorothy Corbin, Esther; Lillian R. Miller, Electa; Goody Mori, warder and George Holt, sentinel.

Other Masonic officers to be installed are James McIver, senior warden; E. E. Thompson, junior warden; Charles R. Heller, treasurer; J. D. Anderson, secretary; Sam Faulkner, chaplain; Herman C. Tiedemann, marshal; Otis Wing, senior deacon; M. F. Jones, junior deacon; R. W. Seibold, senior steward; Cloyd Sipes, junior steward; S. A. Follett, tiler.

Assisting in installing the O.E.S. officers will be Evelyn Mandeville, Elizabeth Bavier, Clyde Mandeville, Ametta Firpo, Janice Gray and Donald VanHooser, the latter two representing the Order of Rainbow for Girls and the DeMolay chapter.

Vocal selections will be by Jeanne Kessey, accompanied by Alice Price and Glenn Little, accompanied by Judith Wells, will render a trumpet solo.

FOUR TAHOE PEOPLE HURT IN ACCIDENT

Four Tahoe people were treated at the Tahoe Forest Hospital Friday afternoon as a result of a collision between two cars on Dollar Hill.

Treated for minor injuries were Mrs. James Brehler, driver of one of the cars; Steven and William J. Brehler, her sons, and Mrs. Guy Wilson. The second car, registered to Lloyd Lambert of Reno, apparently skidded into the Brehler machine. Two occupants suffered minor nijuries but were not immediatelv identified by the California Highway Patrol which is investigating.

Conferences Are Held By Parents, Teachers

During the past two weeks the teachers at Truckee Elementary School have been holding parent-teacher conferences on each Tuesday, Wednesday and Thursday evening between 7 and 9 p.m., Principal Weston Sauby said.

As in the past, each parent was given an opportunity to select a time most suitable for them and definite appointments were made for that time by the teachers.

Most of the teachers report that during this conference period they have talked with nearly all the parents of children in their respective rooms.

"It is very gratifying to see teachers and parents working so closely together for the good of our children, Sauby said. "We feel that this enables us to do a much better job of teaching, and we would like to take this opportunity to thank all the parents for being so cooperative."

TAXABLE SALES IN COUNTY ON DECLINE

California's State Board of Equalization in its 40th report covering the taxable retail sales in the state's cities and counties for the second quarter of 1957, disclosed that Nevada County's taxable business was $4,8088,000, which represented a 3.5 percent decline from the second quarter of 1956. In the same period the state average showed a gain of 7 percent. Sierra County's loss was 22.2 percent; Yuba's 4.9 percent and Placer gained 1.8 percent.

In the Nevada County taxable sales total, 365 inside the cities (Grass Valley and Nevada City) permits did $2,805,000 in business and 442 permits (outlets) outside the cities, contributed $2,003,000 in taxable sales.

Parking Presents Problem In Area For 1960 Olympics

Enlarged Arena; Circular Highway Among New Squaw Plans

The California Olympic Commission meeting in the office of Chairman Charles Blyth at San Francisco last Friday approved amendment of a land condemnation complaint against Mr. and Mrs. Wayne Poulsen to obtain under lease 130.3 acres of meadow lands as a parking area for 12,000 autos on packed snow during the 1960 Winter Olympic Games at Squaw Valley.

While the parking plan is being furthered by members of the Organizing Committee, headed by Prentice C. Hale of San Francisco and engineers for that organization, people in the area where the games are to be held look with considerable apprehension upon the proposal. They charge that the uncertain weather conditions during the middle of February might provide a hazardous condition for the thousands of expected spectators.

Used By Navy

The compacting theory has been used with some success in colder areas by the navy for landing planes in the antarctic, and during the coming winter, Hale said, the plan will be tried at Squaw Valley.

Local opponents point out that even though this winter might provide ideal conditions, no assurace can be given that the same conditions will prevail when the 12,000 cars are expected.

Engineers are giving consideration to a plan advanced by the Truckee Park Committee which would make available some 90 acres of land adjoining the new freeway and State Route 89 at the Tahoe-Truckee Wye. This site, as well as the originally planned old airport area east of Truckee, are held to be more expensive than parking on the snow in the valley, but would, in the opinion of those familiar with snow and parking conditions in this region, provide a safe and adequate facility.

Lease Land

The land, if acquired from Poulsen would be returned to the own-

Continued on Page 8

Girl Scout Fund Drive Open Today

More than 20 Girl Scouts drive captains and their workers prepared today to contact all residents of the Truckee-Donner Lake area in the annual Girl Scout fund-raising campaign.

The drive will begin with a kick-off meeting at Smart's Cafeteria at 1:30 this afternoon. This is one of the steps being taken to bring the Truckee Girl Scouts into the Sierra-Nevada Council. Such affiliation will give local Girl Scouts preference in attending camp and will also make available to troop leaders the assistance of professional Girl Scout executives in planning well-rounded activities.

Team captains are Mesdames Glenn Miller, Glenn Coffey, Bruce Quartly, Edward Frates, Kenneth Hedlund, Lloyd Van Sickle, Roy Saarni, Francis Snyder, Robert Leamon, Jergen Vind, Lester Braasch, Cliff Ellis, Lauren Russell, Lorrin Ferdinand, Robert Mosby, Wesley Fair, Gerald Lewis, Walter Jellin, J. R. Richard, Ervin Single.

Leaders of the drive are Mrs. David C. Rose, Mrs. Russell York, Mrs. Preston A. Patnoude and Mrs. Eva Hallet. Also assisting are Zeph Rose, Lee Apple, and Roy Saarni, members of the finance committee.

CANTATA PLANNED BY CHURCH CHOIRS

The choir of the Community Methodist Church will join with the same church choir at Kings Beach to present the Christmas cantata to be given here on December 19 and the following evening at Kings Beach.

The event will be under the leadership of Rev. Earl Langguth and Victor McLane who will conduct rehearsals in Truckee each Thursday evening and on Friday evenings they will alternate between Kings Beach and Truckee.

MYRNA HALL WINS TRAIN AT DONNER

Myrna Hall of Truckee was the winner of the electric train given away at last Saturday's matinee at the Donner Theater. On next Saturday's bill, Louis Hayward will star in Captain Pirate, a film especially selected for the matinee which starts at 1 p.m. Another train will be given away at that time.

Scott Allan Wilson Is Born at Hospital Here

Scott Allan, son of Mr. and Mrs. Guy Wilson was resting comfortably in Tahoe Forest Hospital following his arrival on Sunday, November 17. The young man's arrival weight was 6 pounds and 14 ounces.

His mother is doing well after an automobile accident which occurred the previous Friday.

In 1856 the boundaries of the City and County of San Francisco were adjusted to make them co-extensive.

AFFAIRS OF STATE
by Henry C. MacArthur

SACRAMENTO —(CNS) —While the poet noted this is the time of the year when the frost appears on the pumpkin, to the state division of highways it's the season when the snow is on the highways.

Now on a standby basis, and ready to go into action at a moment's notice is a far-flung network of two-way radios and non-mobile radio relay stations, for reporting of highway conditions in the areas subject to snow.

The advent of the highway condition reporting service is heralded with all the enthusiasm of a TV spectacular.

"Widest dissemination of road condition report is via a statewide teletype circuit for the highway division headquarters to news services, newspapers, radio and television stations, automobile associations an dothers who pass the information on to the public," the division publicity men reported.

On a previous occasion, 1955 eo be exact, the beginning of the road reporting was marked with an open house tour for newsmen, complete with coffee and doughnuts at the local cafeteria.

After early or middle November, when the first highways are blocked by snows, or chains are required, the division will dutifully send around a long list of highways, listing them as "open and normal" or otherwise. This is a fine service when winter storms are moderate but one might wonder what would happen to the far-flung network is a real emergency developed.

If one wondered just prior to Chirstmas of 1955, he learned the answer. On the Friday before the holiday—and incidetally, the day before the Feather river breached the Yuba City levee—thousands of Californians were leaving or were about to leave for holday trips. From Sacramento, there was scarcely a highway route in any direction which was not subject to some blockage or detour—slides, washouts, high water and the like.

It was a day when even the most foolhardy motorist felt it wise to obtain whatever highway information was available.

So what of the far-flung network? Well, the two-way radios were trasmitting away, the non-mobile relays were relaying away and the Sacramento staff was busy compiling reports. But did they disseminate them?.

No. The chief publicity, when contacted by the harried capitol newsmen, said they would be too busy compiling the information to put out a report that day.

The situation was saved, however, as a number of the newsmen explained to this civil servant that he had very well better take time out from his compilations to read a list of whatever highway conditions were available.

This and other similar crises in the lives of the state's forces of flack men serve to point up the extent t owhich civil service and the accompanying bureaucracy has infiltrated into their news services. For the most part, such information services are run on an 8-to-5 basis, with time out for coffee breaks.

These information men seem little impressed tha ttheir first duty is to deal with newspapers, radio and television stations—organixations which are geared to speedy handling of news and deadlines. As a result, they often work on their news story productions, the same as a report to a department head, delivering it—not when it is timely—but when the clock on the wall points to 5 p.m. and it's quitting time. The story, if it had any merit to begin with, often is rendered useless by the long lag in its delivery.

The air-sea base now being built at Rota, Spain, by the U. S. Navy will be the largest American naval facility in the European-African area.

SAFETY PLOTTERS—Following the path of an Army missile on a plotting board at White Sands Proving Ground, N.M., are George Meredith (left) and Private First Class George F. Lamprecht of Peoria, Ill. If the missile leaves its flight path it can be exploded harmlessly by a flip of a switch.

RESIDENT ENGINEER ASSIGNED ON PROJECT

Leon R. Hawkes has been assigned as resident engineer for the Hampshire Rocks to Soda Springs project on Highway U.S. 40, District Highway Engineer Alan S. Hart announced in Marysville today. The division of highways field office is temporarily located in a trailer house at Wofford's Motel in Kingvale.

Hawkes is being assisted by a crew of 12 men. The state force is engaged in pre-construction engineering on the project site.

The newly assigned resident engineer moves to this project from the South Lake Tahoe area where he headed state forces during the recently completed improvement of Highway U.S. 50 from Mays Junction to the California-Nevada state-line.

Bids for the construction of the Hampshire Rocks to Soda Springs section of freeway will be opened in Sacramento on December 4.

Licenses Are Required For All Age Hunters

Just who does need a hunting license?

License agents and hunter safety instructors are continually being asked this question. While the California hunting regulations are quite clear on this subject a word of clarification may help.

Any person, regardless of age, who hunts, takes, captures, pursues or kills any game bird or animal must first obtain a proper hunting license.

What is the minimum age below which a person may not hunt in California? There is no minimum age except that persons under 12 years of age may not hunt deer or bear or purchase deer or bear license tags. Special hunts for elk and antelope are limited to persons 16 years of age or older.

Since July 1, 1954 all persons under the age of 16 years who have not previously held a California hunting license must successfully complete a hunter safety training course before they may purchase their first hunting license. There is no minimum age established by law—as long as a junior hunter can successfully pass the required hunter safety tests and is considered by the hunter safety instructor to be competent to handle fire arms safely.

NORTH TAHOE

By JUDGE HARRY CHARRISON

Sunshine And Showers

It's Saturday morning again, and at 10 a.m. it's beautiful, the sun is shining delightfully at 7 a.m. it was 15 above, now it's 33, and during the big storm that you heard about on TV and radio, this area had about one-half an inch of snow and only about three inches for the winter so far. It's really been nice, no kidding, ask the chamber of commerce.

Builder

Just had a letter from Mrs. Maurice Lemke (Diana Abbott). I hear she and her husband are building a lovely home at Sumner, Wash. I think Maurice is doing most of it. They were hoping to have it finished by the time Mom and Dad get up there, which, I gather, will be around Christmas time. Diana says hello to all of her friends at the lake. One reason why she wrote was to keep up her subscription to the Sierra Sun. She says they just couldn't get along without it. Oh, yes, Jacquie will tag along too. Sure nice to hear from this happy young couple.

What Fun It Was

In 1952 during the over-sized snow storm, a committee was appointed by the Council of North Tahoe Organizations, of which Mac Burroughs was chairman, under Al B. Broyer of Auburn. This committee was the Federal Defense Disaster Organization and, by the way, did an enormous job for the people of the community. There were approximately 16 pairs of snowshoes sent to Mr. Burroughs who had the task of distributing same to those that were in important positions for the safety of the area. Now we find that there is at least five pairs still out. It is the intention of the committee to turn in the shoes to members of the fire department by the end of this month, so if you happen to still have any that were loaned to you, will you please return same to Curly Mason, the fire chief?

Out For Awhile

Earl and Carrie Gray have left the lake to return to Oakland, making a stop at Auburn to visit with their son and family. It was a hard job to tear them away from their favorite spot—the lake, of course.

Down But Not Out

Now, it's our friend, E. J. Stokes, misbehaving himself. When leaving the Crystal Bay Club via the rear steps, down he went on the ice and bingo goes his ankle. Quite a break. As of this Sunday morning it is not in a cast owing to the swelling, but he was fairly comfortable. He is already itching to get back to work. Get well quickly, E. J.

Date Change

Mrs. Otto Walter says the box social advertised for Saturday, November 23 at the Wee Kirk Church will be held on Friday, November 22, the day you receive this paper at Kings Beach, so be sure to attend. We guarantee a wonderful time. Bring your boxes, ladies, and see ho wthe prices are bid on them and a handsome guy to sit with to boot.

Nursery Food Sale

The Kings Beach preschool nursery will have a food sale on November 26 at the Stop 'n Shop Market in Kings Beach at 10 a.m. The proceeds will go toward buying the youngsters instructive materials to work with the various toys. Don't forget the date, next Tuesday.

Visiting

John Moore and wife, Loma, were up visiting the Sorensens and the Moores over the past weekend. John is now working as research assistant of the economics division water resources department for the State of California. They are now living in Sacramento. Eddie reminded me that color television casts are now on regularly and the public is invited to come and see them at his home, especially the matinee theater and color spectaculars. The Moore home is opposite the new home of the Wiley Jones on the top of the Brockway Hill.

Weather Again

Monday morning, 8 a.m., 31 degrees had about one inch of snow Sunday evening, but it is cloudy and looks like rain, not too bad.

New Car

Mel Throop has just arrived home with a brand new car, after a visit with Mrs. Throop's father at Stoughhouse near Folsom. Mel is a popular real estate agent at Kings Beach, and tells me business is god and looks for a bigger improvement in sales.

A Good Newspaper

Richard Brennan of the Tahoe Biltmore Hotel, a new subscriber to the Sierra Sun, says things will be moving fast in the reconstruction of the hotel pretty soon.

Punishment

Davey Ashton writes if you have any trouble with the teenagers getting tickets, don't fine them or put them in jail, do the next best thing, give them two years in the navy, that will be good punishment.

New Residents

There are new residents of Brockway. Leonard and Francis Cernusak have purchased the home of Dixie and Mabel Reese and are getting settled and moving in today, Monday. The youngsters are all attending Kings Beach School—all but wee Joie. Leonard is a P.B.X. installer repairman for the telephone company. We welcome the family and feel they will make wonderful people in the community. Fred Schultz made the sale.

Promotion

The Lake Tahoe Sierra Chamber of Commerce has hired, on a initial basis, a full-time promotion man, Bill Bien. He comes to Tahoe from the Wisconsin Resort Association of Madison, Wis. The primary object of his operation for the chamber could be the unlocking doors for advertising. We certainly need this in a big way, as the chamber is making winter promotion plans now and will keep you advised through the Sierra Sun.

NEW LAW PREVENTS FATIGUE ACCIDENTS

Sleepiness or fatigue is doubly hazardous when it effects drivers of commercial vehicles, warns the local office of the California Highway Patrol.

"Changes in the traffic laws that became effective September 11, include restrictions on driving time by drivers of vehicles used for transporation of persons or freight for compensation," declared Sergeant Frank Snyder in charge of the Truckee Sub-station of the patrol. "Drivers of vehicles which transport persons for compensation shall not drive more than ten hours in any 24 hour period unless eight consecutive hours off duty have elapsed.

"The same law provides that drivers of vehicles used for transportation of freight or other property for compensation shall drive for only 12 hours in any 24 hour period unless eight consecutive hours off duty have elapsed," the sergeant stated. "Drivers and operators of all commercial vehicles should review this and other laws applicable to them, particularly those laws changed or revised by the 1957 legislature.

"Voluntary adherence to the law is desired," Snyder declared. "However, drivers who fail to conform can expect enforcement action against all such hazardous practices."

NEWS NOTES FROM TAHOE

By Naomi McLane
Tahoe City, Box, 711. Juniper 3-3187

Benefit Ball

You have all seen the posters advertising the Harvest Ball given by the Tahoe Lake PTA this Saturday night, November 23? This is just a last minute reminder and an urge to attend this benefit dance. The members of the PTA decided to try a one big money raiser this year instead of the many different smaller activities they have worked on in previous years. Since we all support these smaller drives let us support this one big one. Many people have not understood that the buffet supper—and it is to be a smorgasboard indeed — is to start promptly at 8 p.m. At nine the live orchestra will tune up and dancing will continue for the rest of the evening. A surprise drawing will be held. If you have not already bought your ticket they will be on sale at the door. Mrs. Vonnie Jones is chairman of the ways and means committee, Mrs. Dottie Caulkett of the prize commitee and Mrs. Tessie Anderson of tickets. Mesdames Chick McBride and Joyce Spitsen are in charge of the harvest theme decor. Remember the time: 8 p.m. buffet supper; dancing at 9.

Choir Benefit

The choir benefit dinner at St. Nicholas Hall was a fine success. Morethan 75 dinners were served and the women feel their time was well spent. Gordon Moyer showed colored films of the Missions in California which he had taken himself and gave a most interesting talk as he showed them.

Surprise Visit

Mr. and Mrs. Lawrence Bosen from Yuba City made a surprise visit Sunday to their brother and his wife, Mr. and Mrs. C. E. Bosen. Ed Bosen had other visitors earlier in the week, Mr. and Mrs. Eddie Lewis from Vallejo. On Thanksgiving four of the Bosen brothers and their families will gather in Yuba City to share the holiday together.

In Hospital

This week has found several members of our community in the hospital. You will have real elsewhere in the Sierra Sun of the hit-run accident on Dollar Hill that caused Mrs. James Brehler, her two little boys, and Mrs. G. W. Wilson to be hospitalized with cuts and bruises. Mrs. Wilson gave birth to a little boy Sunday morning and we understand that all is well with both mother and child. The driver of the other car was apprehended in Kings Beach.

Have Pneumonia

Charles Neilsen and Frank Daft have both been very ill with pneumonia. At this writing both are on the mend. In Neilsen's case, it was probably a direct result of the going out to work too soon after a bout with the flu. Kim Turner had to spend some time also with her bad flu bug.

Birthday

Last year Mabel Neilsen celebrated her November 16 birthday alone while her husband was in Reno with his back operation. She feels a little bitter, she says, with a smile, that this year, too, she celebrated alone. Neilsen's son, Dick, has a ninth birthday this Saturday.

To Celebrate

Little Franz Herrmann known as Hermie will become four on Monday, November 25. He will celebrate this important occasion with his friends, Mike Kettenhoffen and Tony McLane.

Bad Slide

On the same icy day that Mrs. Brehler and Mrs. Wilson had their accident, Mrs. Enrico Giannini had a bad slide but fortunately was not injured.

Returns Home

All who know him are rejoicing in the return of the wanderer, Od Odne. Od came home after a two year's absence visiting his mother and other relatives in his native Norway.

Successful Hunt

Bud Pabsca has returned this week from a most successful hunting trip in Colorado. Two deer and part of an elk was his share of the loot.

Teachers' Party

Our local school teachers "went out on the town" for sheer pleasure Sunday night. If any one deserves evenings for no purpose except enjoyment it is certainly teachers. Think of the many, many nights they spend on school occasions. Taking dinner together at Crystal Bay were Mr. and Mrs. Hal Farr, Mr. and Mrs. Al Covallo, Mr. and Mrs. Ralph Rauscher, Mrs. Solveig Beavers and Jim Reynolds.

Children's Books

Mrs. Marie Graham, librarian of our Julia Bechdolt Memorial Library, has a most delightful display for this week which is Children's Book Week. A small red-bowed Christmas tree donated by David McBride is on the display table. Gay red ribbons run from the tree to the various classes of new books on display. There are books for the very young, several new sports stories, four brand new adventure and mystery books, a section named Good Stories among which is a new Dr. Doolittle book by Hugh Lofting, animal stories and a group labelled These Answer Questions. Among these last are two on space travel which would be as interesting to the uninitiated adult as they are to children. One is called the Story of the Atom and the other is You and Space Travel. These books may be taken out next week when the little Christmas tree goes down but any child, or adult, may sign up this week if he especially wants one as soon as possible.

Returns Home

Mrs. C. W. Vernon returned this week with her daughter, Florence. She has spent the last 10 days or so visiting Florence who is an officer at Hamilton Field Air Base. Spending the weekend with Vernons were Master Sgt. Theodore Mortag from Hamilton, and Mrs. Ollie Engel, an old friend of Mrs. Vernon whose home is in Daly City.

Rotary Meets

Rotary met Tuesday night at Bacchi's Inn. Twenty-seven members were present and one visitor. Program Chairman George Selkirk showed two reels made by the telephone company. Both were fascinating to the men. One was about the DEW line, the building of our Arctic radar bases, The other was called the Voice Beneath the Sea and showed the process of laying the most recent Atlantic cable in 1955 and 1956.

HUNTERS AWAIT DAYLIGHT TO KILL BEAR, TREED CUB

by NAOMI McLANE

TAHOE PARK—Everyone loves a bear story and when it's three bears . . . well, look at Goldilocks.

Richard Sprague doesn't look like Goldie but he probably felt a little like her when he discovered two cubs and a mother in his own backyard in the small hours of Sunday morning. He got up to quiet his dog and saw that the dog was awfully concerned about something in a tree. Upon investigation he discovered it was two somethings, two cubs. And then a sound behind the woodpile made him realize the mother was very near, too.

It was still a little too dark to see well and Dick did not have a gun big enough to take care of the mother. After Sprague called their near-neighbor, Ray Moe, knowing that if anyone would love to be in on a hunt it was he. For about an hour they all kept watch, the four Sprague children, Suzanne, Linda, Danny and Randy Joe, as well. At one time in this period the anxious mother got entangled with the dog and raked its back. She also came tearing out to spank one cub farther back up the tree.

Finally it was light and good aim could be taken. A heart-shot killed the mother and one cub was felled. The other got away in the confusion. The bears dress out to fine weight and there will be two beautiful bear rugs in two homes soon. The mother was a black and the cub was a lovely mahogany color.

REPORT ON HANNA BOYS' CENTER GIVEN

The annual report of one of California's most unusual corporations was sent to the Sierra Sun and Republican this week, with the request that local "stockholders" be advised of corporate progress.

The non-profit corporation is Hanna Boys' Center, the California "boys' town" which has been built near Sonoma entirely by voluntary contributions and bequests. The stockholders, according to the Rt. Rev. William L. O'Connor, director of the attractive little town in the Valley of the Moon, are the many residents of the Truckee area who have contributed to the building and expansion of Hanna Center.

Among the dividends for these donors is the recent arrival of the 600th youngsters to find a home at the haven for neglected boys of all races and creeds, in time for the December 4 observance of the 8th anniversary of the opening of the home. Chief Justice Earl Warren, the former governor of the state, dedicated the 180-acre site after ground-breaking ceremonies led by Bishop Fulton J. Sheen.

The director reported that 1957 has seen growth of the new trade school, and of the ranching activities. The trades program now includes work in such fields as carpentry, electricity, metals, printing and general mechanics. His chief efforts now are centered upon development of this program to the point where all of the lads can prepare for productive citizenship by learning the elements of a useful skill. His success, he said, depends upon favorable response to an annual letter of appeal for help which he sends, for the boys, to many California homes.

Lady beetles, sometimes called ladybird beetles, destroy aphids, scales and other soft-bodied plant feeding insects.

The atmospheric region immediately above the surface of the earth is called the troposphere.

PUBLISHED IN THE PUBLIC INTEREST by
THOMAS JEWELRY
Did you ever hear a man brag about his $14.95 watch? . . . .
Of course not! Nor will you hear a man brag about a broken down car or sagging house! For, like an automobile or home, a watch symbolizes success and position in life.
The fact is that magnificent Hamilton Watches, time-honored throughout the world for more than 60 years, are superior watches . . . in craftsmanship, styling and beauty . . . true aristocrats of the watchmakers' art.
For many years, among folks who realize how much satisfaction and pride there is in wearing a truly fine watch, Hamilton has been the exclusive choice! Yet, like superior products of any kind, Hamilton Watches actually cost less to own. Their brilliant styles will look fresh and new for years to come, and with unusually rugged, yet highly accurate precision movements, they should provide lifetime service with few repairs.
After years of selling fine watches and jewelry, I am convinced that a Hamilton Watch — regardless of price — actually costs you less and gives you more than any so-called "bargain" watch.

Board of Equaliziation Ruling Will Affect Christmas Tree Sales

GRASS VALLEY—For several years, many Christmas tree operators have decided, to head for Los Angeles, and other southern California cities to sell their trees.

Many of these people arrive in these cities and Los Angeles, without adequate knowledge of the laws which govern Christmas tree retailing. Many neglect to take out California State Board of Equalization permits, and pay their state sales tax at the close of the season.

During the coming season the state board of equalization will require a deposit from every itinerant seller subject to sales tax in this state. The amount of the deposit will be set at the amount of the tax liability estimated by the board.

In the past year a rough figure that has been used is approximately 10 percent of the estimated gross, although the California tax is only 3 percent. This can be averaged out at about $400 per lot for a deposit.

The board of equalization will also require a license for "itinerant merchants," as defined by the California Itinerant Merchants Act, who makes sales in this state. Itinerant merchants may apply for this license at the same time they secure their seller's permit. The fee for the itinerant merchant's license is $20 for each vehicle used by him in the conduct of his business.

Like the state board of equalization, other state agencies are cracking down. Land clearance papers, which show ownership of trees, bills of sales from land owners, or Christmas tree growers and suppliers, which show clear title should be in the possession of anyone who is carrying trees across the state lines, or traveling in California.

NOTICE OF INTENTION TO ENGAGE IN THE SALE OF ALCOHOLIC BEVERAGES

To Whom It May Concern:

Subject to issuance of the license applied for, notice is hereby given that the undersigned proposes to sell alcoholic beverages at the premises, described as follows:

N S Hwy. 40, ¼ Mi. W. of Summit, Norden, Nevada County.

Pursuant to such intention, the undersigned is applying to the Department of Alcoholic Beverage Control for issuance by transfer of an alcoholic beverage license for these premises as follows:

ON SALE GENERAL (SEASONAL-QUARTERLY).

Anyone desiring to protest the issuance of such license(s) may file a verified protest with the Department of Alcoholic Beverage Control at Sacramento, California, stating grounds for denial as provided by law. The form of verification may be obtained from any office of the Department. The premises are not now licensed for the sale of alcoholic beverages.

RUDOLPH J. TALSO

TRUCKEE BIBLE CHURCH

Sunday, November 24, the Truckee Bible Church will begin to hold Sunday school and church services in the home of Mr. and Mrs. William Englehart, Jr. We surely appreciate the opening of this home to the ministry of the gospel and it is with regret that we abandon the Donner Trails Lumber Co. Building which has so graciously been made available to us these many months by the owner, Mr. Val Galleron. The building facilities are not suited to the winter months.

The Sunday school department will continue to function as before with classes offered according to age and Scripture Press material being used for all.

Mrs. Rhoades would welcome a call from anyone with musical talent that could be used in the ministry of music. This is a very important part of our service and we do need the help and cooperation of more in it.

Teen-Time meets this Friday at 7:30 in the usual building. With all the planned activity to keep us warm, the heating facilities will be adequate. If you are in Truckee and need a ride, call Luther 7-3716. If in Tahoe City and in need of transportation, call Juniper 3-3237. See you there!

FIVE MEMBERS ARE ACCEPTED IN V. F. W.

KINGS BEACH—Five members were accepted in the Ladies Auxiliary of the V.F.W. at the meeting held November 13 in Crystal Bay Club including Sophie Levra, Ruth Lemen, Ruth Brooks, Betty Solari, and Kay Felte.

Contributions were asked for the National Home for Children and the members will gift wrap and furnish the socks for the annual community Christmas party to be held at Kings Beach.

A banner for the organization will be presented at the December 8 meeting of the local group to be held in Crystal Bay Club.

Refreshment hostesses for the recent meet were Pearl Martin and Pearl Koltes.

Pearl Moore, president of the auxiliary received a letter from Weimar Sanitorium thanking the local women for the Halloween favors sent the patients.

A social meet will be held November 27 when prizes will be given for Christmas favors ideas and discussions of further plans for gifts for the children will be held. The project will be completed at the December 11 meet, Mrs. Moore reported.

SIERRA SUN ADS PAY!

Planning Commission Studies Donner Projects

NEVADA CITY—Further plans to prepare recommendations to builders in the Truckee-Donner Lake area in lieu of any action at this time on a county building code were discussed Tuesday night at the Nevada County Planning Commission in regular session in the courthouse.

The recommendations will be made in answer to some requests by builders entering the county who wish to know what standards are required. In this way it is hoped that suggestions will help prevent haphazard building which might otherwise result.

Discussion was also held on proposed precise zoning of these two regions in line with the expected influx of persons for the 1960 Winter Olympics.

A use permit was granted by the commission to Kenneth Hill to move a sign in the Donner Lake area where highway construction is now going on, with the condition to obtain the property owner's approval.

FISH, GAME MEETING

The California Fish and Game Commission will meet January 3, 1958, in the State Employment Building, 722 Capitol avenue, to receive recommendations concerning regulations relating to fish, amphibia and reptiles.

Private citizens and organizations are invited to submit their recommendations. Recommendations will also be submitted at that time by commission officers and employes, the department of fish and game and other public agencies.

Saratoga National Historic Park is the scene of the American victory over the British forces in 1777.

WHAT'S DOING

George Selkirk, Telephone Manager, Truckee-Tahoe

OPEN HOUSE

All telephone company subscribers in this area are invited to attend an open house to be held at the new dial building in Truckee December 3, 1957, and in Tahoe City on December 5, 1957.

The offices will be open to the public from 9 a.m. to 8 p.m. on the dates mentioned above, with the hours from 9 a.m. to 2 p.m. reserved for school children.

There will be a telephone company employe on duty to explain how the dial equipment operates.

We are looking forward to seeing as many of our friends as possible attend.

GEORGE SELKIRK, Manager

* * * * *

You know, that voice of yours really gets around by telephone. We can send it under the ground or through the air. And now—if you want to phone Hawaii—your voice will go under the ocean, too! The picture above shows a sample of the new telephone cable to Hawaii. Two ships worked all summer to lay 2400 miles of this cable on the ocean floor. So now, your long distance operator can dial calls direct to the Islands. And it makes no difference what the weather's like. Thanks to the cable, your calls go through fast and clear. Whether you phone Hawaii or the corner grocery, you can bank on good, fast service.

* * * * *

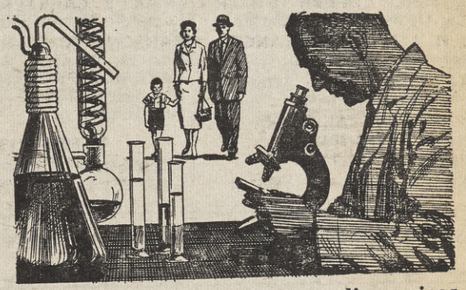
Lots of folks I know are prettying up their homes—and making things easier for themselves—by adding color telephones. When you put new phones in the rooms you use a lot, you'll wonder how you ever got along without them. Because you sure save a lot of time and steps. You can choose from *nine* beautiful colors, too. Why not give us a call here at your telephone business office? We'll be glad to talk it over with you.

What's happened to gasoline prices?

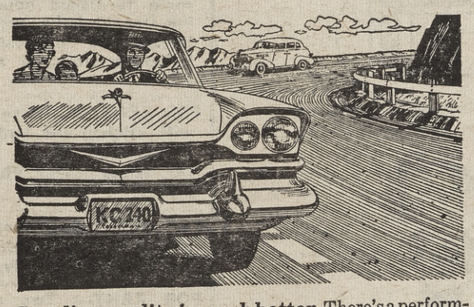
If you've wondered . . . here are some things you should know

Gasoline prices have not risen as much as other products. The only fair way to compare is with other things you buy. The U. S. Cost of Living Index shows the over-all cost of living is up 102.3% since 1939. During that time the price of gasoline rose only 62.8% not including taxes.

Taxes add about 9¢ to the cost of every gallon. Thus, nearly 30% of your gasoline dollar does not buy gasoline . . . it's for state and federal tax. These taxes go to help build and improve the roads we all enjoy. However, we must include them as part of the price you pay for a gallon of gasoline.

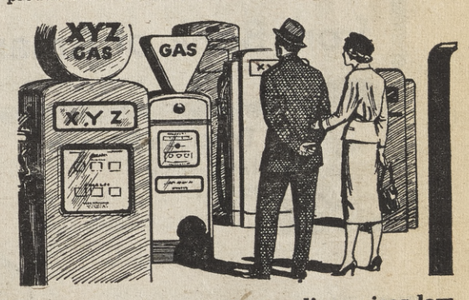


Research also helps keep gasoline prices down. Standard and the oil industry employ more than 15,000 full-time researchers . . . invest more than $160 million each year to develop ways to find and produce oil more efficiently, and to make more and better products at a lower cost.



Gasoline quality is much better. There's a performance bonus for motorists in the big improvements that have been made in gasoline over the years. Quality has risen so fast that the regular gasoline you buy today is comparable to the premium gasoline of just ten years ago.

Oil is getting harder to find and more expensive to develop. In 1956 our average cost for a well was $149,000 . . . up 40% over the past five years. In 1956 we completed 101 wells in the Gulf of Mexico where drilling costs can be six times as much as on land.



Competition helps keep gasoline prices low. There are 300 oil refining companies in the U. S. Each tries to make better products and give better service than the others. At the same time the refiner must keep his prices competitive or face the loss of customers.

Here's why gasoline is still one of your biggest bargains: Today the average worker can buy 85% more gasoline with an hour's pay than he could in 1939.

Tahoe-Truckee School District News

TRUCKEE ELEMENTARY

First: We have some colorful turkeys in our rom for Thanksgiving decorations. The children had fun coloring, cutting and pasting them.

The following children have almost completed the book "We Work and Play," David Capel, Carol Hart, Nadine Farley, Mary Lou Randall, Elaine Barnes, Anna Marie Collier, Craig Swauger, Joe Reichline and Donnie Schuler. Their next book will be "We Come and Go."

Second: Bill Rose brought an ant colony to share with us.

Bruce King and Danny Funk arranged our rock and shell collection.

Fourth: In the fourth grade two people, Julie Knoff and Candy Hamilton, received "outstanding" grades for academic achievement. During the first report period Teddy Daniels, Karen Walker, and John Besio had a "perfect attendance" record. Eighteen members of the class earned and worked for 100 percent spelling lessons during the past week. Thanks to the creative ability of Charles Trainor, the class is now enjoying the skills of "Bean Bag."

Fifth: We are very sorry to have Donna Haune move. We will miss her greatly.

The southeastern states are being studied in social studies. Special reports were given by Jim Roth, Gregory York, Garry Sturcke and Lynn Qaurtley.

In reading special reports were given by Marcia Leamon, Eddie King, Wade Mosby, David Fordham and David Saroni.

KINGS BEACH SCHOOL

Kindergarten: We have been making song books. We are making potato print covers for the books.

First: We wrote some very nice stories this week. Pat Cinani has returned from having the chickenpox. Our school pictures came and we are busy trading pictures.

Second and Third: The following second graders received 100 percent in their final spelling test this week. Michael Dapp, Dyanne Lausche, Bobby Brandt, Eva Eckenboy, Janice Wing, Jan Jensen, Greg Pope, Georgia Burris, Shari Decker, Ann Felte and Susan Tucker.

Third and Fourth: We have two new girls, Karen Snelson and Sherri Paradise. Report cards were the big event in our room this week. Susan Clackett, Carol Corbin, Christine Wainscoat, Terry Boatman, Bruce Templeton and Vern Wing were the students who had no more than two words wrong in spelling for the 10-weeks period.

Fifth and Sixth: Good News! The sixth grade is ready for a new reader. We have worked hard. We welcomed two new students this week, Diana Lish and Terry Snelson. Artwise, both fifth and sixth graders have discovered there is a secondary color wheel containing 12 colors. Some of the color wheels were well done. We have them on display.

TnT Tidings

by NANCY WATTS

Four girls' volleyball teams, freshman, sophomore, junior and senior, took a trip last Saturday. They arrived about 9:30 a.m. at Nevada Union High School in Grass Valley, where they participated in a GAA Volleyball Playday.

Also at the playday were teams from El Dorado, Placer, Roseville, Lincoln, and Nevada Union High schools. Out of 20 games, Tahoe-Truckee won six. Our freshman team made the best showing, as it won about 60 percent of its games.

* * *

The TnT choir went to University of California last Saturday in order to attend a choir festival which included most of northern California. The songs they sang were: "Green Cathedral," "The Lord Bless You and Keep You," and "Stormy Weather." As we are a school with a student body of under 500, we were in Class "C." After a long and eventful day, the choir arrived at home about midnight.

* * *

The drama class, with Mr. Rootes as its advisor, presented a two-act play to the grammar school at Kings Beach. Using the theme of a Chinese love story, the comedy was called, "Off With His Honorable Head." Students participating in the production were Penny Hulburt, Buzz Trainor, Renee Hall, Sherry Thatcher, Joe Romo, Mike Robinson, Carolyn Henry, Kit Schull, Kathy Corbin, Jim Wainscoat, Dorothy Mercer. Sherry Curran, Lynda English, Carol Patnoude, Marie Plemons. Tina Gruendemann, Linda Barnett, Barbara Kammerer, Sandy Van Sickle, and Debbie Bradley.

The navy's oldest auxiliary air station, dating back to November 1, 1922, is at Corry Field, Pensacola, Florida.

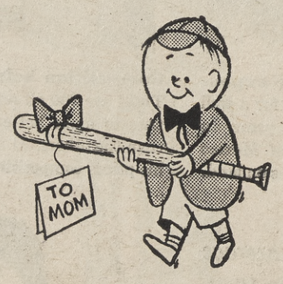
IT'S THE THOUGHT THAT COUNTS . . .



And one thought that counts up *big* around Christmastime is a thought which thousands of Californians had a *year* ago! That's when they got the idea of starting a Bank of America Christmas Club Savings Account, setting a savings goal, and making regular monthly deposits of $5, $10 or more. Now they've reached their goals, and they're shopping *carefree* for a Christmas *debt-free!*

Start your own Bank of America Christmas Club Savings Account now, and you'll enjoy next Christmas even *more!*

RIDDLE:

What one gift is made-to-order for everybody?

ANSWER: It's money, in the form of a Bank of America Money Order all dressed up in a colorful Christmas gift envelope—the easy yet *distinctive* way to give money for Christmas. Costs only 20¢, too, for any amount up to $300, whereas Postal Money Orders for over $10 cost 30¢ and up. (The envelope is free.)

Remember: money is always a welcome gift. It can be exchanged anywhere for *anything* . . . it's always in perfect taste . . . comes in all sizes . . . and there isn't a complexion it doesn't compliment. For those hard-to-please names on your Christmas list, give a Bank of America Money Order in a happy holiday envelope.

B of A Quiz Corner

DID YOU KNOW THAT you can save automatically with a Bank of America Christmas Club Savings Account. Simply authorize us to transfer a specified amount every month from your Checking Account to your Bank of America Christmas Club Account.

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC WORKS
DIVISION OF HIGHWAYS

NOTICE TO CONTRACTORS

Sealed proposals will be received at the office of the State Highway Engineer, Room 510, Public Works Building, Sacramento, California, until 2 o'clock p.m. on December 18, 1957, at which time they will be publicly opened and read in the Assembly Room of said building, for construction on State highway in accordance with the specifications therefor, to which special reference is made, as follows:

Nevada County, near Truckee between 1.4 miles west of Junction Routes 37 and 38 and 0.5 mile westof Boca (III-Nev-37, 38-D, A), about 8.8 miles in length to be graded and surfaced with concrete pavement and plant-mixed surfacing to provide a 4-lane divided highway; 11 bridges are to be constructed; highway lighting, steel sign structures, and a truck scale house with attendant facilities are to be constructed or installed.

Bids are required for the entire work described herein.

In accordance with the Streets and Highways Code, this contract will not be awarded prior to January 1, 1958.

The time limit specified in the special provisions for the completion of the work contemplated herein is, in the opinion of the State Highway Engineer, insufficient to permit completion of the work by the Contractor working a normal number of hours per day or week on a single shift basis. It is expected that additional shifts will be required throughout the life of the contract to the extent deemed necessary to insure that the work will be completed within the time limit specified. Any additional costs occasioned by compliance with these provisions will be considered to be included in the prices paid for the various contract items of work and no additional compensation will be allowed therefor.

The attention of bidders is directed to the fact that the work herein proposed to be done will be financed in whole or in part with Federal funds and that therefore all of the applicable Federal statutes, rules, and regulations will apply to such work.

The attention of the bidders is particularly directed to the provisions of Section 7, article (a), subarticle (6), of the Standard Specifications regarding the use of domestic materials; to the provisions of Section 8, article (b), of the Standard Specifications regarding assignment of the contract; to the requirements of Section 7, article (h), of these special provisions regarding non-collusion among contractors; to the requirements of the special provisions regarding subcontracting; and to the prevailing wage rates predetermined by the Secretary of Labor as provided in Sections 5 and 7 of the special provisions.

Minimum wage rates for this project have been predetermined by the Secretary of Labor and are set forth in the special provisions.

In accordance with the provisions of Section 1770 of the Labor Code of the State of California, the Department of Public Works has ascertained the general prevailing rate of wages applicable to the work to be done to be as follows:

Rate Per Hour	Classification
	Skilled Labor
$3.30	Asphalt plant engineer
3.62	Boom type backfilling machine operator
3.00	Boxman (asphalt plant)
3.225	Carpenter
3.44375	Carpet and linoleum layers
3.22	Cement finisher (journeyman)
3.055	Combination bootman and road oiler

3.62	Tractor loader operator (2 yards and over)
3.33	Trenching machine operator
3.33	Truck type loader operator
2.90	Truck driver (6 cubic yards and less than 8 cubic yards water level)
3.10	Truck driver (8 cubic yards or more water level)
	Intermediate Grade Labor
2.75	Apprentice (oiler, fireman, heavy duty repairman helper)
2.755	Asphalt ironer and raker
2.98	Blaster — Powderman
2.705	Bootman
2.755	Chainsaw operator, faller, logloader and bucker
2.98	Driller (diamond, core, wagon and track driller)
2.605	Driller's helper, chuck tender, outside nipper
2.89	Fireman in hot plant
2.755	Header board man
2.755	Jackhammer operator
2.605	Operator of vibrators and all pneumatic, gas and electric tools
2.755	Pipe layer, caulker, bander
2.605	Sloper
2.55	Truck driver (less than 4 cubic yards water level)
2.69	Truck driver (4 cubic yards and less than 6 cubic yards water level)
2.725	Water truck driver—under 2500 gallons
2.825	Water truck driver — 2500 gallons and under 4000 gallons
2.925	Water truck driver—4000 gallons and over (including semi-trailer)
	Unskilled Labor
2.505	Flagman
2.505	Laborer
2.505	Limber, brush loader and piler

The minimum wage paid to all skilled labor, for which rates are not shown above, shall be not less than $2.705 per hour.

The minimum wage paid to all intermediate labor, for which rates are not shown above shall be not less than $2.505 per hour.

The minimum wage paid to all unskilled labor, for which rates are not shown above, shall be not less than $2.505 per hour.

Overtime—not less than one and one-half (1½) times the above rates.

Sundays and holidays—not less than one and one-half (1½) times the above rates. The holidays upon which such rates shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workmen employed on the project.

In the event there is a difference between the minimum wage rates as predetermined by the Secretary of Labor and the prevailing wage rates as determined by the Department of Public Works for similar classifications of labor, the Contractor and his subcontractors shall pay not less than the wage rate which is the higher of the two.

Plans, specifications, and standard proposal form to be used for bidding on this project can only be obtained at the office of the State Highway Engineer, Public Works Building, Sacramento, California.

Plans and specifications may be seen at the office of the State Highway Engineer at Sacramento, at the offices of the District Engineers at Los Angeles and San Francisco, at the office of the District Engineer of the district in which the work is situated, and at the office of the Associated General Contractors in San Francisco.

No bid will be considered unless it is made on a blank form furnished by the State Highway Engineer and is made in accordance with the provisions of the Proposal Requirements and Conditions set forth under Section 2 of the Standard Specifications. Each bidder must be licensed and also prequalified as required by law. (See said Proposal Requirements and Conditions.)

The Department of Public Works reserves the right to reject any or all bids.

DOZING AT WHEEL IS ACCIDENT CAUSE

SACRAMENTO — Fatigue and dozing at the wheel are definite accident causing factors warns the California Highway Patrol.

"An average of over 270 drivers a month either fatigued or asleep at the wheel are involved in traffic accidents on California streets and highways," declared Patrol Commissioner B. R. Caldwell. "These factors are easily controlled through proper consideration of the hazards connected with driving while excessively tired or sleepy.

"Fatigue and sleepiness are usually the result of long and continuous driving hours, failure to get adequate rest each night while on a trip, and trying to pack an excessive number of miles into a few hours," Caldwell stated. "Single-car, running-off-roadway type accidents frequently involve a driver asleep or dozing at the wheel.

"The control of this situation is simple," he concluded. "Shorter driving hours, frequent rest stops, adequate sleep each night, and sharing the driving will help eliminate accidents caused by fatigue and sleepiness."

CURFEW ORDINANCE ADOPTED IN PLACER

AUBURN—The board of supervisors has adopted a curfew ordinance prohibiting anyone under 18 years of age from loitering on highways or in public business places in the unincorporated areas or in public business places in the unincorporated areas of the county between 11 p.m. and 6 a.m.

The new legislation, approved unanimously, will become effective in 30 days. It will exempt juveniles accompanied by a parent or guardian.

Prohibited from loitering on streets and highways are persons over 18 unless they have lawful and necessary business.

Juveniles who violate the ordinance may be certified to juvenile court and their parents may be fined or jailed.

BLISTER RUST WORK OVER IN U.S. FOREST

L. A. Rickel, forest supervisor of the Tahoe National Forest, said that the seasonal work on white pine blister rust control program on the Tahoe Forest has been completed.

The white pine blister rust is a disease which attacks white pines, killing this valuable tree specie. The disease is spread by windblown spores from other infected trees but. Rickel said, it cannot be passed directly from one pine to another. An alternate host is required, which is the wild gooseberry and currant bush. The spores produced on the pine must infect the currants or gooseberries, where another type of spore is produced which, in turn, introduces the disease to other trees. The spores that infect the currants and gooseberries are wind blown hundreds of miles, but those which infect the pines will travel only around 200 feet. This peculiarity of the disease makes control possible by removing all currants and gooseberries within 200 feet of each sugar pine.

The cost of removing all of these bushes from the entire forest makes it out of the question. Throughout California the very best sugar pine areas alone have been selected for special treatment because of the high value involved. It is in these areas where the blister rust control is carried on. The Tahoe National Forest has approximately 25,000 acres in this sugar pine management. Sugar pine is considered by most lumbermen to be California's most valuable tree, and they believe it will always be in demand, no matter how many new wood substitutes are developed in the future.

TIMBER SALES WILL BE OFFERED IN AREA

H. B. Turner, acting supervisor of the Tahoe National Forest, this week announced that the forest expects to offer several timber sales for bid during the snowbound period of the winter and spring. Prospective bidders are asked to contact rangers in the area so they may see the timber before heavy snow falls.

One of the areas is at the Cedars, six air-miles south of Soda Springs where 100 M b.m. of ponderosa and sugar pine and 4000 M b.m. of white and red fir will be offered for bids. Buyers may contact Paul Madden, district ranger of Soda Springs.

Other sales will be in Camptonville, Sierraville, Downieville and Nevada City ranger districts.

Aluminum has developed from the status of a laboratory curiosity to a commonly used metal within less than 100 years.

About 85 per cent of the wool entering world trade is apparel wool, the balance carpet wool.

LAST RITES HELD FOR SARAH ANN ERNST

Final rites were held Tuesday in Sacramento for Mrs. Sarah Ann Ernst, 71, a retired Kings Beach, Placer County, school teacher. Cremation followed the rites.

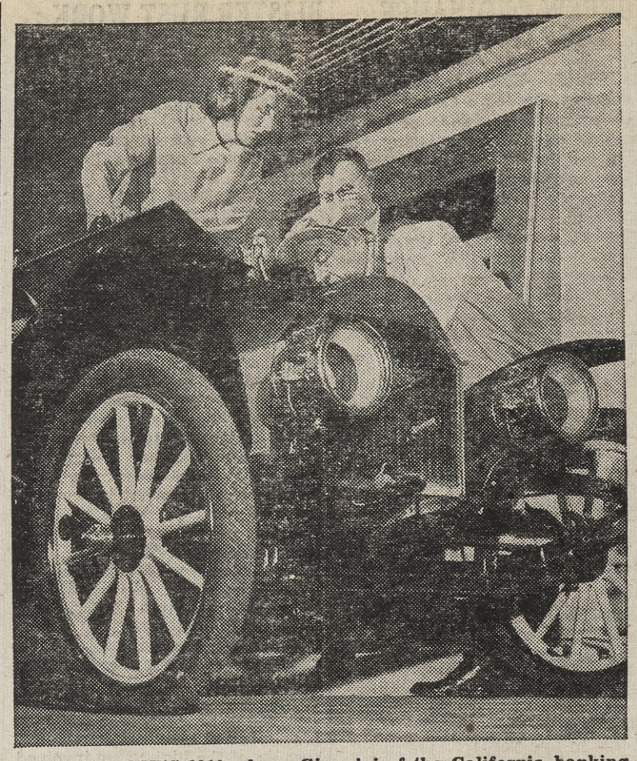
Mrs. Ernst died Friday in a hospital in Oroville, Butte County, following a short illness. She retired four years ago after teaching in Kings Beach for about eight years.

The daughter of the late Charles and Emily Wilson, she was born in San Joaquin County. Many years ago she taught in schools in Lancha Plana, Amador County, and then did office work for firms in San Francisco and Stockton, San Joaquin County.

She was a past matron of the Order of the Eastern Star chapter in Portola. Before she became ill she had lived in Colusa, Colusa County, and Graeagle, Plumas County.

She was the mother of Mrs. Vera B. Beckley of Colusa; sister of Monroe Wilson of Modesto, Mrs. Minerva Cassidy of Stockton, San Joaquin County, and Mrs. Mary J. Sawtell of Rio Linda; and the grandmother of Sharon Gail Beckley of Colusa.

There are 208 ski areas on the national forests with shelters and ski lifts or tows.



SUDDENLY IT'S 1910—Anne Giannini of the California banking family watches as engine on 1910 Hupmobile Torpedo roadster is checked by Frank F. Risso, chauffeur as a young man to Anne's grandfather, A. P. Giannini. Now Risso is a vice president of Bank of America. The car was the first ever owned by Anne's father, the late L. M. Giannini, and has been restored to its original gloss. It was the first auto to use the drive-up banking window at a new San Mateo branch of the bank Nov. 14. Branch Manager W. J. Schneider is in background.

Crystal Bay Seeks Fire District For Tahoe In Nevada

CRYSTAL BAY — Petitions to secure adequate fire protection for the North Lake Tahoe, Crystal Bay area by forming a fire protection district are being circulated, according to Walt Mandeville, resident of the area. Mandeville is one of a group of interested residents who have been taking the lead in this important project.

Mandeville explained that signatures of 25 percent of the land owners are necessary to form the district under Nevada state law. A considerable number of signatures have been obtained, he stated, but more are required. In the near future, land owners will receive a letter explaining the project and asking for their signature.

It was further revealed by George Zappettini, state forester, who has been an advisor on forming the district, that the area is now in a forest and watershed protection district formed several years ago. The present district is solely responsible for providing adequate forest fire protection and is not adequately financed or equipped to provide protection for the large clubs and many residences, he said. The area was included in a forest protection district prior to the increase in buildings and population.

State law provides for withdrawing areas of this nature from a forest protection district upon petition by land owners. Therefore, a petition to withdraw from the existing district is being circulated with the other petition.

Zappettini, whose office is also responsible for helping in formation of districts, explained that a local fire district, when formed, is governed by an elected board of directors who administer the district without pay. They are elected from precincts within the district by the land owners. The district is financed by a fire tax on land and improvements. The amount of tax depends upon the budget as set by the board of directors and approved by the county commissioners.

If, and when, the district is formed, adequate equipment will be purchased and a fire house built on the Nevada side in a suitable location, Zappetttini said.

At the present time, protection is given the highly valuable area from Kings Beach, through the North Lake Tahoe Fire Control Corporation. However, due to changes on the California side, this protection will not be available in the future. People on the California side have formed a district, and their equipment can not come into Nevada unless an agreement with a similar district is in effect.

RUDY TALSO TAKES OVER AT SKI RANCH

NORDEN—Donner Summit Tramways, Inc., announced the appointment of Rudy Talso of Norden as the new manager of the Donner Ski Ranch.

Rudy, who is better known on the Mountain for his Samoyed dog team, has been affiliated with the skiing at the University of California Lodge and for the past seven years with the Sierra Club, which he managed. He is a graduate of UC at Berkeley but succumbed to the call of skiing and resort management in lieu of a school teaching career. He is a native of Washington, but gave up the rain for the green and gold of California and has made the Tahoe-Truckee-Summit area his adopted home.

Although at present single, Rudy plans for a February wedding to Miss Rhoda G. Roberts of Palo Alto.

Tony Richter, former manager has accepted employment with the Squaw Valley Lodge.

Rudy says the Ranch will be officially open in the middle of December. However, a newly installed rope tow is already in operation on a newly manicured slope.

The next meeting for discussion of Great Books will be held December 11, according to Roy Baker, librarian. The proposed November 27 meeting will not be held due to Thanksgiving the following day.

OLYMPICS
Continued from Page One

ers June 30, 1960 and Poulsen would be compensated for its use. In the meantime, the owners would be given free use of the land for the pasture and other useage.

Plan For Hotel

The commission has under consideration an application from the Squaw Valley Inn Corporation for the return of some four acres of land near the site of the games facilities for the purpose of erecting a $1,000,000 hotel. Morris Lowenthall, attorney for the company, said work could be started just as soon as the land, owned by Poulsen, but included in the condemnation sut, can be obtained.

The commission authorized changes in the plans for the ice area to increase the capacity, and to shave the cost by some $3,000,000. This decision was accompanied by an order rejecting bids for construction of phase II of the facilities which includes the arena.

Return Land

The amended complaint will eliminate 27 of the original 72.5 acres sought from Poulsen and add 21 acres needed for the construction of a four-lane loop road in Squaw Valley, tying in with State Highway 89. The total land area now sought from Poulsen, in fee and easements, at a price to be determined by a trial jury, will be 63.5 acres, with three acres being sought from other landowners.

Reduction of the taking sought from Poulsen resulted from a decision by the Organizing Committee to house Olympic employes in existing accommodations in the Lake Tahoe area, Truckee, instead of constructing dormitories on a site owned by Poulsen behind the flood control lake in Squaw Valley.

In other actions, the commission received a report on progress in site clearance, grading and flood control work under Phase I of the Olympic building program, and on the nearly completed 3200 foot Little Papoose Mountain ski lift. The Phase I program includes construction of four Olympic Village dormitory buildings to house 1200 athletes, for which the foundations have already been poured.

LAKE TAHOE NOTES

Mr. and Mrs. Charles L. Sherman of Tahoe City are in Galt but write that they are returning in the spring.

Mrs. Anna Blaue of Tahoe Vista left Wednesday for her annual fall trip to Ventura.

Hunter In Hospital—
William Hunter of Tahoe City has been a patient at Tahoe Forest Hospital.

To City—
Bill Briner of Tahoe City left Tuesday for the University of California Hospital where he will receive treatment fora spinal injury. Mrs. Briner accompanied her husband to the bay district.

Still No Decision On Floriston Walk

Despite concerted efforts by various agencies interested, no progress has been reported on improving conditions in the school children's transportation problem at Floriston.

A meeting of the Floriston Home Owners Association was held this week, presided over by H. C. Savage, but no concrete recommendation was forthcoming.

In the meantime, Supervisor H. G. Loehr said he would continue his investigation of the legal responsibility for providing access from Floriston to Highway 40 where the 25 or more children board the school bus each day.

The school officials, while willing to assist in every possible way, charge that they are unable to provide transportation into Floriston since it is within the two and a half mile limit established for providing bus facilities.

Since the Southern Pacific installed a barricade over the crosswalk used for many years, the children are required to travel an additional mile to go under the underpass and meet the buses. This will provide a handicap this winter and efforts are being made to correct the situation as soon as possible.

District Attorney Harold Berliner is scheduled to meet with the Floriston people this evening in an attempt to find the answer.

Tarzan

by EDGAR RICE BURROUGHS

EAGER FOR VENGEANCE, TARZAN AND BRUCE BROWN PURSUED THE ARAB PIRATE THROUGH TRICKY WATERS.

THE TWO MEN FOLLOWED THEIR ENEMY TO A STRANGE ISLAND AND THEN, SUDDENLY, AKBAR'S SHIP DISAPPEARED!

BRUCE BROWN AND TARZAN GAPED IN SURPRISE. A LARGE CAVE CUT INTO A ROCKY PENINSULA--LARGE ENOUGH FOR A BOAT TO ENTER!

BUT THE DISCOVERY WAS ILL-RECEIVED--THERE WAS A TERRIFIC EXPLOSION, THEN CHURNING WATER AS A DEADLY SHELL LANDED NEARBY! 11-24-1394

"QUICKLY, WE MUST RETREAT!" BRUCE SHOUTED. "THAT PLACE IS A REGULAR FORTRESS!"

...LATER, WHEN THE BOAT DOCKED AT BROWN'S HOME BASE, TARZAN CONSOLED HIS FRIEND. "DON'T DESPAIR--I KNOW HOW TO GET AKBAR!"

"FIRST, I'LL NEED TWENTY CASKS OR BARRELS." HE SMILED MYSTERIOUSLY. "THEN HAVE YOUR MEN CUT SOME LEAVES AND TUBULAR REEDS!"
